EDUCATION

Master of Science in Computer Science

Jan 2024 – Dec 2025

Arizona State University, Tempe, AZ.

Bachelor of Technology in Computer Science

Jul 2018 – May 2022

Christ University - Faculty of Engineering, India.

TECHNICAL SKILLS

Development: Python, Java, HTML/CSS, JavaScript, Bootstrap, Node JS, React JS, Express JS, MySQL, PostgreSQL, C, C#, MATLAB

DevOps: Jenkins, GIT, REST, Docker, Kubernetes, AWS - S3, EKS, EC2, Lambda Shell Scripting(Linux)

PROFESSIONAL EXPERIENCE

Amagi Media Labs, Bengaluru, India: Implementation Engineer

Aug 2022 – Nov 2023

- Analyze the requirements of the content creator/client and prepare solution architecture as part of onboarding.
- Configure the content, resources and environment using kubernetes, docker and AWS services - EKS, S3, EC2, Medialive, Mediaconnect, etc.
- Deliver the content to the playout platforms through CDN or AWS Mediaconnect or others depending on the platform requirement.
- Each content creator comes with a unique set of requirements for implementation which have to be configured in line with the playout platform requirements which often leads to extensive customization.
- Experienced in understanding and implementing new methodologies firsthand and then training my peers and rest of the team on the same.

Blueplanet Solutions Inc, India: Web Development Intern

April 2021 - June 2021

- Front end, Back end, Database Management, testing & Data Analysis.
- Analyzed the existing data, identified specs & designed a database for the project Campus Club and published using stored procedures in MySQL Workbench.

PROJECTS & PUBLICATIONS

Plethora - A fest Management System | Full Stack

- A functional online web application for Fest Management to know about the events conducted, register & keep track of the registrations.

Parallel Implementation of Gaussian Filter on GPU Platform | MATLAB, Python, Image Processing, PyCUDA

- Optimization of Gaussian kernel by implementing separable technique on a 2D matrix. This technique decreases the number of multiplications performed in a matrix multiplication.

Automated Online Attendance Bot | Automation Anywhere

- Developed a bot to monitor attendance online Developed in Automation Anywhere. The data required attendance is generated from WebEx

Expense Tracker | Android Studio, Java, Aunthentication

- Built a mobile application to track daily expenses
- The execution includes login authentication, income and expense tracker with a user dashboard

CERTIFICATIONS/ACHIEVEMENTS

- Microsoft Technology Associate for Programming in Python: *Microsoft/ATS Solutions*
- REST API: *Coursera*
- The complete 2024 Web Development Bootcamp: *Udemy*
- Secured 3rd place in CODE-A-THON: *Foobar, Christ University*
- Awarded with **Rockstar Rookie** at Amagi Media Labs for my performance and contributions to the organization.
- Sergeant ranked cadet in NCC where I led a flight of 50 cadets, demonstrating strong leadership and organizational skills. Secured C certificate with 'A' Grade
